Measures for preventing infectious diseases

Please read the following important information

We appreciate your cooperation during the health checkup.

1. Please note that if you have a temperature of 37.5°C or higher or are suffering from an infectious disease (coronavirus, influenza, etc.) on the day, you will not be able to undergo the health checkup.
2. Please be sure to measure your temperature at home before coming to the health checkup on the day.
You may be asked to take your temperature at the Health Care Center.
3. We recommend that you bring your own mask (non-woven mask) and wear it during the health checkup.
4. Inside the TUFS Health Care Center, we ask for your cooperation in maintaining social distance between participants in the health check up.
 - Please keep conversations to a minimum. Please do not speak loudly.
 - The TUFS Health Care Center will be ventilated and the number of people will be limited, so you may have to wait outside for a long time. Please bring something warm to wear if it's cold outside.
5. If you are undergoing an X-ray examination, please bring or wear plain, thin undergarments or T-shirts.
